Meeting Agenda:

Ordered by Priority

1. Show Jon a current walk through of the website/what it does/new features
2. Duke health insurance data vs North Carolina data -- don't have a lot of Duke insurance data → what do you want us to do? Is there more data for Duke insurance specific to cancer
   a. *Likely there is not another data set, but check with David.*
3. Change in front end UI- framework -- potential shift from Vue Material to Vuetify as there are more customizable features for the timeline
   a. *Like the new timeline option*
   b. *Makes integrating values from timeline easier*
   c. *Looks nicer - this is much better!*
   d. *Concern about limiting app taking in more data*
      i. *This makes it more dynamic*
      ii. *We could customize this unlike prev*
   e. *If they want to change layout?*
   f. *Replace all of viematerial w vuetify*
   g. *Integrating with pathlight down the road?*
      i. *Would this cause any issues?*
      ii. *Find out which framework pathlight uses*

4. General advice/feedback/needs
5. Conversation guide
   a. dialogue/tree
   b. Create a checklist that user can print with designated text space, and bring into a meeting
   c. Integrate initial idea into this
6. User testing (heads up)
   a. 2 patients w duke insurance
   b. Medical providers
